The City of Santa Clara is preparing a Comprehensive General Plan Update (including a Housing Element Update) along with a Zoning Code Update, and has determined that a Environmental Impact Report (EIR) will be necessary. The City of Santa Clara requests your input regarding the scope and content of environmental analysis in order to ascertain potential impacts of the proposed project. The City of Santa Clara, in compliance with the California Environmental Quality Act (CEQA), will direct the preparation of the EIR for the project.

As the Lead Agency, the City of Santa Clara will prepare an EIR for the above-referenced Project. The City is seeking the views of Responsible Agencies and the public as to **the scope and content** of the environmental information that should be considered for inclusion in the EIR for the proposed project.

The project description, location, and potential environmental effects are contained in the materials provided in the form of a Notice of Preparation (NOP). The NOP is available from the Planning Division Office at the address below, and is available on line at the City's General Plan website [www.santaclaragp.com].
